LONDON FILMAKTION GROUP PRESENT
NEW CONCEPTS & TECHNIQUES IN
CINEMA INCLUDING MULTI-PROJECTION-
& LIVE PIECES

20th to 27th JUNE 1973
Walker Art Gallery Liverpool

NEW DIRECTIONS IN FILM-ART

A continuous programme of recent work by young, independent film makers. Emphasis will be on film installations, live action pieces, expanded events and multi-screen work with opportunities for informal discussion. There will be children's workshops on three mornings.

From a broad base of using film as film, materially and formally, a concern has developed to treat the projection situation as an immediate reality in time and space. This exploration of film and perception is a mainspring of all the work.

Each film maker works individually within a co-operative framework, sharing equipment, facilities, distribution and a cinema.

New pieces will include :

Roger Hammond's "Polaroid Installation"
"Audition Phonation"

Gill Eatherley's "Light Occupations"

Annabel Nicolson's "Sweeping Changes"
and "Frames"

Malcolm Le Grice's "Pre-production",
"Four wall duration"

David Crosswaite's "Thames Studio
Installation"

Mike Dunford's "Logical Propositions"

William Raban's "two minutes, forty-
five seconds"
