GENERAL INFORMATION

All colour tapes were made in collaboration with the composer, Simon Desorgher, using the facilities of the Royal College of Art School of Film & TV. They are performance pieces recorded in real time with no subsequent editing. The accompanying diagram shows schematically the improvisational situation used.

The tape "ENTERING" was commissioned by the BBC 2 programme "Second House" and broadcast in May 1974. And tapes have been shown at the National Film Theatre & International Film Festivals.
