# HOTEL

22mins U-matic colour

**Romance in the lounge, risqué stories in the restaurant and beds slept in by thousands are all ingredients of 'Hotel'.**

**Marty St James and Anne Wilson don the guises of proprietor and guest to escort us on a tour of memory and imagination which reveals the stories and fantasies lurking in every room.**

**Their video recreates the bizarre ambience and conventions of hotel life by mimicking and exaggerating its actuality, using various techniques including multi-layered electronic imagery.**
