## Announcement

FREE WEEKEND PROGRAMMES OF RECENT VIDEO TAPES  
at 12.00, 1.30 and 3.00 on Saturdays & Sundays

Video Technology and Practice: These programmes of recent video tapes by young British artists have been selected by writer and tape-maker Stuart Marshall.

The theme that links the three programmes is the artist's response to the developing means of video production; in the first programme, computerised editing; in the second, the availability of colour and in the third the use of chroma-keying (electronic mixing of images).

Introductory notes on the tapes by Stuart Marshall will be available at each programme.

<u>Programme 1</u>	20 / 21 March and 27 / 28 March	minutes
