London SW2,
England

January 14th. 1979

Dear David,
how are you? It is so long since we saw each other, but I always follow your work.

As you know by Alessandro Silj, who met you in London, we are together setting up a video exhibition for next spring.

I shall put together the art section, which will include around 5 tapes per country. For what is concerning England? I would appreciate very much if you could choose the said art tapes, (one per artist, if possible), and inform me about as soon as possible. The dead line for the catalogue (photos, informations etc) will be february 28th.

The organization (the Cultural dept. of the city of Rome) will pay ~~xxxxxxx~~ 100.000 liras each tape, plus shipping and insurance. The show will be open for 20 days, during which, except the videotapes officially proposed, there will be an open videotek, in order to let people see more works, and the artists and the operators with this medium be able to show more work.

I'm enclosing a draft to inform you more precisely. In the catalogue it will be mentioned about the fact that the english selection for art will be done by you. I hope you will be willing to participate in this organization, and I'm waiting to see your videowork, which I like so much, and the others you will choose. Write me soon here in the country where I live most of the time. All my best friendship,

Maria Gloria Biccocchi
