

# E V E N T S P A C E

**E**ventSpace is an organisation aiming to promote and foster awareness of exhibitions and one-off projects in time-based and related experimental areas in Scotland. It is co-ordinated by artists who will seek to create their own initiatives regarding activity and will seek funding on a project-to-project basis. EventSpace does not require a permanent gallery space and the principal aim is to co-ordinate and negotiate for a suitable venue for each location. In addition, EventSpace will take on board projects initiated by other organisations both within and outside Scotland and will work towards establishing regular screenings/artist on tour scheme for video and film.

EventSpace will establish a list of interested venues/organisations throughout Europe in the hope that projects can be toured or hosted in other countries. In relation to this, EventSpace is building an archive of slides and other material covering new artistic areas in Scotland and seeks contact with interested individuals and organisations across the fields of art, community and education.
